WHO WILL PAY DAMAGES FOR RIGHT OF WAY ON RIVER ROAD?

**Indemnity Bond Must Be
Filed with the Public
Service Commission**

STATE READY TO BEGIN WORK

Who will pay the damages for the right of way of the new river road between Speers and Allenport?

Once this question is answered satisfactorily it is said this highway project will be advertised and placed under contract at once.

A meeting of the board of directors of the Charleroi Chamber of Commerce with representatives from Speers, Dunlevy, Allenport and other communities interested was held at the borough building Tuesday evening. Walter Byerly, president, was in charge of the meeting, with R. H. Rush as secretary.

Howard Hughes, Esq., representing the county commissioners, said that all rights of way had been secured and that all papers in connection therewith had been signed, but it was a question as to who would pay the damages.

A. P. Barnum, of Allenport, a former commissioner, said the amount of damages in Allen township would amount to \$15,500, this exclusive of what might be demanded in Dunlevy borough. It was further stated that the Vesta Coal company had waived all damages for changes it will be necessary to make at its trestle abutments near Allenport.

All details have been arranged with the Pittsburgh Steel Products Co., and the Pittsburg company for the change in their tracks, but a new road bed must be prepared for them, and the whole question comes back as to who shall pay the damages. The County Commissioners, said Mr. Hughes, are of the opinion, that Allen township should assume the amount of damages claimed by citizens of that township. Who will pay damages in Dunlevy is another matter that must be adjusted.

It is said that the State Highway Department is ready to advertise for bids, but an indemnifying bond must be filed with the Public Service Commission to take care of all damages before anything will be done.

Another meeting has been arranged for between the directors of the local Chamber of Commerce, and members of council from Speers and Dunlevy, and the road commissioners of Allen township, to be held in the borough building, tomorrow afternoon at 4 o'clock, at which time the question of an indemnifying bond for damages, and as to who should pay it, will be again discussed.

NEW SCHOOL BUILDING NEARING COMPLETION

The new high school building of the Belle Vernon school district has been so far completed that two of the rooms were occupied on Monday of last week. This week it is expected that the other rooms in the building will be ready for occupancy. It was found that there was not enough money to complete the large auditorium, and this will be finished later. The Belle Vernon Construction company had the contract for the erection of the building.

LOCAL HIGH GIRLS TO PLAY ELIZABETH

The girls' team of the Charleroi high school will play the girls of the Elizabeth high school on the local floor this evening, beginning at eight o'clock. A most interesting contest is anticipated. The visiting team has been winning its games with regularity, and, inasmuch as Captain Pierol's girls are now playing well, chances for success are about even.

"THE COUNTY FAIR" HERE FOR TWO DAYS

"The County Fair," with a real circus band and Wesley Barry, arrived in town this morning for a two-day engagement at the Coyle theatre. The band made its appearance on the streets just before noon, and will also be heard at intervals during the stay of the "County Fair" in town. The production is one of the best seen in filmland and will undoubtedly draw large houses during the engagement. Manager Coyle says the state of weather will have no effect on the big horse race, which is a feature of the show, as it will be pulled off in a realistic manner whether it be wet or dry.

WASHINGTON TO HAVE A MILLION-DOLLAR HOTEL

Washington is to have a new million-dollar hotel. The campaign for subscriptions to stock closed Monday night, at which time the citizens of the community had taken over \$500,000, leaving a balance of \$100,000 which will be left for voluntary subscriptions. The promoters of the plan had already arranged to float \$600,000 of the amount necessary by bond and mortgage, and now that the people have responded so handsomely, work on the new structure will become a fact within a few months. It will be a great asset to the county seat.

Miss Lois Darby, who has been visiting with relatives in Kansas City, Mo., and Cadiz, Ohio, for several months past, has returned to her home in Charleroi.

Citizens of North Charleroi Complain of Blocked Crossing

A regular monthly meeting of the council of North Charleroi was held at the borough building Monday evening, with Messrs. Rockwell, Wildman, Burke, Beaumarrige and Plasmann present. The treasurer reported a balance from last report of \$639.05; total receipts, \$295.60, making a total of \$934.65, with disbursements of \$847.03, leaving a balance of \$137.62. The tax collector reported collections to the amount of \$582.43.

Bills to the amount of \$250.31 were ordered paid.

Mrs. Nell Crabb and Charles McLaughlin appeared before council with reference to the condition of Seventh street, from Lincoln avenue to the railroad. The matter was referred to the street committee.

Several citizens were also present making complaint about the condition of the Seventh street crossing, it

being asserted that the crossing has been blocked at times for a period of two hours. The President of council asked that all cases be reported to the Burgess or clerk, instructing informants to secure the number of the engine or caboose, that they may be reported to the railroad company.

The sidewalk ordinance requiring all parties to lay sidewalks was passed for final reading, and ordered posted.

A motion prevailed that all financial reports must be presented to the financial committee before the regular night.

The Burgess was instructed to collect all delinquent sewer permits at once.

The question of better fire protection was taken up and discussed and was referred to the fire and water committee to make their recommendations at the next regular meeting.

WORK RESUMED AT TIN PLATE MILLS

Twenty of the 44 hot mills of the McKeesport Tinplate Company, whose plant is located on the Yough river a short distance above McKeesport, resumed operation on Monday. Officials say they are hopeful that conditions will warrant continuous operations with gradual conditions. They say that it would be useless for out-of-town men to seek work at the plant, as the regular force is sufficient to operate the entire plant, when that is possible.

The men accepted a readjustment of about 20 per cent in the wage scale. The officials plan to work out a schedule whereby as many as possible of the regular force of 3,000 men will be given work. The plant had been idle since December 23, with the exception of about ten days when 24 mills were in operation.

MORE TRANSFERS OF COAL IN GREENE

Deeds confirming the sale of two pieces of coal land in Greene county were placed on record at Waynesburg last week. Under deed dated December 1, 1920, Jennie C. Cloud of Masontown sold to the Perry Land company of Pittsburg, the Pittsburg vein of coal underlying a tract of 203.55 acres in Cumberland and Monongahela townships, the consideration being \$259,638.75. In the other transaction, E. E. Gellhoff of Donora, sold an undivided interest in 19 tracts in Jackson township, to T. S. Lackey of Uniontown. This interest equals 100 acres and the price paid was \$10,000. The deed was dated January 21, 1921.

FAYETTE SHERIFF DISCHARGES DEPUTIES

Sheriff I. L. Shaw of Fayette county on Saturday last announced that all deputy sheriffs appointments were revoked, effective that date, with the exception of three men who work out of the Sheriff's office. In revoking the appointments Sheriff Shaw stated that it had become necessary on account of usurped authority being exercised throughout the county, principally by outsiders. There will be no appointments until such time that the situation has been entirely cleared.

A number of cases have been reported within the past few months where fake officers have entered homes under the pretense of an officer and syringed the people out of their goods and otherwise coerced them. The order includes about 400 deputies.

INTEREST RATE LIMIT REMOVED IN BILL

Senator Joseph A. Herron, of Monongahela, on Monday night introduced a bill in the Senate which would allow corporations to borrow at any rate of interest for which they see fit to contract. The indebtedness could be secured by issuing bonds, notes, any other form of certificates of indebtedness or by mortgage on the real estate, personal property or franchises of the corporation.

The proposed law would make valid any and all loans to corporations prior to the passage thereof, which are at a higher rate of interest than that heretofore authorized by law.

FAVOR THIRD-CLASS CITY FOR GOVERNMENT OF COUNTY SEAT

COUNTY WOULD GAIN ONE REPRESENTATIVE

The new legislative appointment figures, based on the 1920 federal census, entitle each county in Pennsylvania to one representative for each 33,600 inhabitants, according to announcement made at Harrisburg on Monday. Under this apportionment Washington would gain one representative, while a number of counties would lose one each.

"DUKES" PROVED A HARD CONTENDER

The gymnasium of the Duquesne high school was the scene of a hard struggle last evening, when the Charleroi boys took their opponents into camp by a score of 35 to 33. The "Dukes" were out to win, and they put up a good contest, although it was somewhat marred by a display of unnecessary roughness. Charleroi did not play the game of which it is capable, but managed, through the effective foul shooting of Frank Wagner, to come out winner.

The game started with "Dooley" Burnett at center, in place of Captain "Dave" Weaver. Burnett did quite well, but the pronounced play ability and tact of Weaver was sorely missed. Duquesne's strong defense proved a big factor in keeping down the number of Charleroi's field goals. On the other hand, the home team managed, by some clever floor play, to secure many more chances for baskets than did their opponents, yet their feeble attempts to cage the ball spelled sure defeat. Both Wagner and Brings, foul shooters for their respective teams, each had the same number of chances—twenty-six—and although the former's efforts at outster of the game were quite disappointing he improved remarkably as the game progressed. In his first ten throws, Wagner registered but four points while in the remaining sixteen, he failed but once. His work was one of the outstanding features of the game. Brings, for Duquesne, was unsteady, and managed to secure only a percentage of 50-50 in his foul throwing. He scored four field goals, and played a very good game.

For Charleroi, Wagner scored two field goals, which with his nineteen fouls, gave him twenty-three points out of Charleroi's total of thirty-five. His second basket, which occurred within a minute of the close of the game, and with the score tied, was a most welcome relief to the few Charleroi rooters present. Daniel added two nice counters, one of which was quite spectacular, and Burnett secured one. The game was a veritable table field day for "Peck" Webster. He threw three elegant baskets, his second one being a long effort and of the most sensational kind. Luck was an important factor in the victory.

Committee from Chamber of Commerce Makes Ex- haustive Report

FOR INFORMATION OF PUBLIC

At a regular meeting of the Chamber of Commerce of Washington, held Tuesday evening, the committee recently appointed by the president to investigate the advantages and disadvantages of a third-class city government submitted its report.

The committee, in its report, which was unanimous, finds that a "third class city government is preferable to that of a borough and recommends a third class city charter for the borough of Washington."

The committee's report showed that a complete and exhaustive, as well as impartial, study of the subject had been made. Four meetings were held at which a wealth of data was gone over and studied. The subject was approached from every possible angle and all the relative facts given the most careful consideration. In addition two public meetings were held, at which time Mayor George H. Lysle of McKeesport, and Mayor William H. Smart of Uniontown, were the respective speakers.

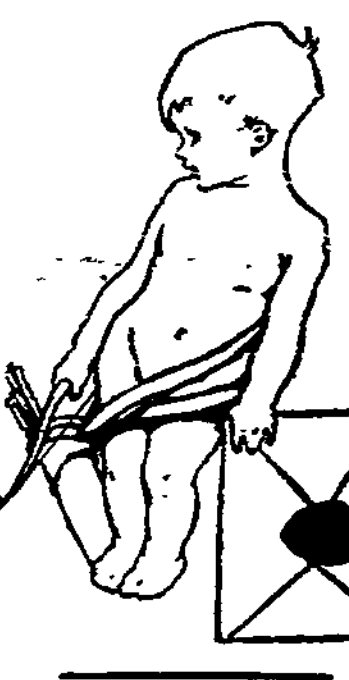

No action as taken on the report by the Chamber of Commerce, the date having been collected for the information of the public, and to put into concrete form some of the arguments in favor of a government of cities of the third class. The report was received and has been placed on file, where it will be available for any of those who wish to inspect it. However, it is anticipated that the report of the committee will go far toward crystallizing public sentiment in favor of a change in the form of government of the county seat from that of a borough to a third class city.

and most of it fell to Charleroi. Duquesne lost the game through the team's inability to take advantage of the many chances afforded it. Charleroi has got to get down to business in preparation for the hard games which confront it, and which will take the finest kind of basket ball playing to make a good showing. In last night's game Brown, who played his usual fine game, acted as captain in Weaver's absence. The summary:
Charleroi—35. Duquesne—33.
Wagner F Brings
Daniel F Meighan
Burnett C Umholtz
Brown G Murphy
Webster G Porvasnack
Substitutions: Charleroi—Stephens for Daniel. Field goals—Wagner, 2; Daniel 2, Burnett, Webster 3, Brings 4, Meighan 2, Umholtz 2, Murphy 2. Foul Goals—Wagner, 19 out of 26; Brings, 13 out of 26. Timekeepers—Kerr and Daniel. Scorers—Kemperer and Miller. Referee—Baird.

SONS OF THE RICH

John D. Rockefeller, Jr., recently told the young men's Bible class, of which he is a conspicuous member, that the life of his father, in comparison with his own, was enviable because "he had to make his own way, and I have never known what that was." On the occasion when he said this the younger Mr. Rockefeller gave a million dollars for the benefit of the starving in Europe, and perhaps he felt that the pleasure of giving would have been greater if he had started life as a poor boy. Doubtless it would have been but the younger Mr. Rockefeller is mistaken if he thinks that it has not been required of him that he make his own way in the world.

Every man, whatever his station or the accident of his birth, must do so if he wishes ever to amount to anything. The sons of the rich too often fail to make their own way, and that is why they are pitied and sometimes pity themselves in comparison with men who have built their own fortunes. There is abundant opportunity for the sons of the rich to achieve for wealth as well as poverty has its dangers to be escaped its difficulties to be surmounted and temptations to be triumphed over. Perhaps there are more perplexities connected with the expert management, proper use and wise distribution of a great fortune than with its acquisition, though the latter requires a peculiar ability that may remain undeveloped in the case of the former. During his productive years the elder Rockefeller had a harder but a simpler life than is his son's.

Even three centuries ago "blue laws" were found disappointing, as the following remarks of Governor Bradford of Massachusetts, colony will show: "Marvelous it may be to see and consider how some kind of wickedness did grow and break forth here, in a land where the same was so much witnessed against, and so narrowly looked into and severely punished. And yet all this could not suppress sundry notorious sins (as this year, 1642, besides others, gives us too many sad instances,) especially drunkenness and uncleanness."

The charge that British interests are trying to destroy American shipping could inspire a readable essay on the changes of time. It is little more than two years since German interests were trying to blow up or sink American shipping and British interests were industriously using up naval ammunition to defend the same.

It is said that since prohibition the demand for onions has nearly doubled owing to the fact that a good mouthful "has a kick stronger than a Missouri mule." It is not likely, however, that this stimulant will be largely used to bring cheer to banqueting boards.

MAY HELP TOWN TO PRESERVE RIVER BANK

Engineers from the office of the U. S. Engineer at Pittsburgh were at West Brownsville on Friday last, making a survey of the river bank in that borough between the inter-county bridge and the West Brownsville junction railroad bridge.

The survey is a result of complaints made by borough officials to Congressman Temple some weeks ago in regard to the washing away of the river bank to such an extent as to become alarming, and that the borough was not financially able to stand the expense of filling or building retaining walls. Congressman Temple placed the matter before the War Department, and as a result the survey is being made.

In a number of places the engineers found the bank had been washed away more than 20 feet, back on private property, leaving dwellings on the very edge of the bank where formerly there was a 20-foot roadway between the dwellings and the river bank. Just what action the government will take is not stated, but residents are hopeful of material aid to arrest the erosion which has become so dangerous.

NEARBY TOWNS ON FIRST MODEL AIRWAY

The creation of America's first model airway during the early months of the year from Washington to Dayton, Ohio, will include many landing stations in southwestern Pennsylvania, according to announcement made by the United States Air Service.

Towns in Pennsylvania which have been designated as landing stations are Brownsville, Confluence, Elk Lick, Fairchance, Hopwood, Hasontown, Millsboro, New Salem, Pines Landing, Smithfield, Uniontown, Greensboro, Waynesburg and Point Marion.

Of this number it is said that Uniontown, Waynesburg, New Salem and Masontown have excellent landing stations. A system has been devised for marking the landing places along the route and also for the purpose of identification. Each state has been divided into 100 parts and each part is given a certain number. This, together with the number of the landing field, is painted in large characters on the ground, so that it can be seen from the air.

The Charleroi Colonials swamped the California Independents at the H. T. A. C. floor Monday evening by a score of 55 to 29, in a fast game, which was attended by a large crowd. Line-up:

READJUST PRICES TO SUIT THE TIMES

A readjustment of prices in the dining room of the Chamber of Commerce of Washington became effective on Monday. A regular noonday luncheon will be served at the same price as formerly, but it will be more elaborate. The maintenance fee for service will also be abolished, and a more extensive variety of sandwiches, salads and pastry will be added to the menu.

COUNTY OFFICIALS ATTEND ROAD MEET

County Commissioners James W. Walker and J. E. Johnston, accompanied by County Controller T. J. Underwood and County Engineer George S. Chaney, left this morning for Chicago, where they will attend the National Road Congress, which will be in session in that city the balance of this week, including Saturday. This is one of the most important gatherings in the country that has to do with road construction and matters relating to road maintenance. Extensive preparations have been made for the meeting and leaders in road improvement work from all sections of the United States will be in attendance.

Before returning to Washington the county officials will visit a number of construction plants in the Chicago section that make a specialty of iron bridge work in order to get facts and figures regarding structures that might be available for repairing local bridges that have become worn and require rebuilding. Some of these concerns make a specialty of refabricating iron and steel bridges discarded by railroads, and reducing them to such size as makes it possible to use them over streams requiring spans from 75 to 150 feet and at prices that are reasonable. In the hope of finding something that might prove of service to Washington county, the officials will inspect some of the plants having this work in hand.

GENUINE CASE OF "HOOTCH" WAS LOST

A case of genuine whiskey is said to have been dropped by an auto truck at the upper end of McKean avenue on Tuesday. The case was "tetering" for some time on the tail board of the truck when it finally tipped and fell to the street. Investigation by parties disclosed the fact that only three bottles had been broken. The driver of the truck returned in an effort to locate the missing case, but when some one attempted to take his number he "stepped on the gas" and left that immediate vicinity very hurriedly.

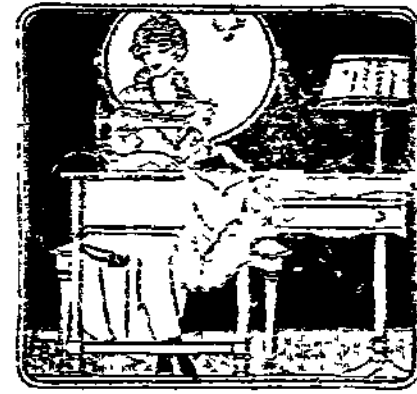

MISSIONARY SOCIETY HOLDS MEETING

The Missionary Society of the First Christian church met with Mrs. Harry Gehoe, Tuesday evening, the devotional leader being Mrs. D. R. Duval. The subject, "The Bible in China," was discussed by Mrs. C. S. VanVoorhis. The hidden answers were conducted by Mrs. Elizabeth Church. Refreshments were served by the hostess, being assisted by Mrs. Mathias.

A deed dated February 1, 1921, made by Elizabeth H. Fisher, et con., Charleroi, conveys to John P. Ferry, et ux., also of Charleroi a lot 22 by 75 feet on Lincoln avenue. Consideration \$4,500.

The grand jury on Tuesday found a true bill against Ella Gollick, for aggravated assault and battery. C. W. Albright being named as the prosecutor.

Better Than Compressed Air. A scheme has been introduced into England by which power is transmitted through impulses in a column of water. For certain classes of work it is said to be very desirable and the transmission is more economically made than with the use of air.

REVISION MEDICAL

EXAMINER RETIRED

Dr. H. E. Westhaeffer, for many years chief medical examiner on the Monongahela Division of the Pennsylvania Railroad, has been retired from service after being with the company for a period of 29 years and six months. For many years Dr. Westhaeffer was located at Monongahela, and taking care of offices at Etrama and West Brownsville. Of recent years he has been living at 335 Collins avenue, Pittsburgh. His retirement was effective as of date of October 1, 1920, although announcement was not made until the latter part of January.

WOMEN MEN ADMIRE

Men admire a pretty face, a good figure, but most of all the happy, healthy, contented woman, as beauty fades and figure will change. Women who are troubled with backache, headaches, those dreadful dragging sensations and nervous irritability, cannot hope to be popular and advancement in either home, business or social life is impossible. The cause of these troubles, however, yields quickly to Lydia E. Pinkham's Vegetable Compound, as it is a natural restorative of such conditions, and dispels effectually all those distressing symptoms.

Advertise your wants in the Classified column of the Mail.

New Spring Voiles

OUR first showing of the new patterns in Voiles and Organdies in the dark back ground with small figures which are so prominently fratured for the Spring. Easter coming in March this year will make early sewing a necessity. We have ordered our goods in early for that reason and have priced them very low

Anaemia

IS CAUSED BY RUN-DOWN GLANDS, SAY PHYSICIANS

Science tells us that when our glands are healthy our blood is rich and red. But when our glands become worn out our blood becomes weak and watery and we grow thin, pale, anemic and run-down generally.

Thousands of people are now building up their blood, muscles and nerves by taking Glandex Compound, the highly successful gland and iron tonic. This gets right to the cause of anaemia and run-down condition by restoring the glands. It does this by feeding them with gland extracts from sheep and cattle.

Glandex Compound is also particularly effective in the treatment of premature old age, loss of appetite, vitality, and energy, and nervous diseases. Sold at all druggists, and is guaranteed to bring decided results in a few days or your money back.

GLANDEX COMPOUND
NEW GLAND TONIC FOR RUN-DOWN PEOPLE

ALFALFA AS A REFRIGERATOR

Planted Around Farm Houses It Has Been Found to Reduce the Temperature Materially.

Refrigerators indoors are common enough, but it took the farmers in the Southwest to devise one for outdoor use.

A farmer who happened to plant a large field of alfalfa south of the farmhouse noticed during the hot summers that followed that his family did not suffer from the heat as did the neighbors. The thermometer showed a temperature five to ten degrees in his favor.

Someone suggested that it might be due to the alfalfa, tried the temperature just north of other alfalfa fields and found the same marked difference. Now the farmers of that region are planting alfalfa around their dwellings and enjoy summer temperatures that make a trip to the seashore needless, according to the Golden Age.

The cause of the coolness of winds passing over alfalfa fields is that the plant absorbs much moisture, the evaporation of which reduces the temperature of the air and lessens the summer heat in the adjoining land over which it blows.

The suggestion now is for farmers that wish to profit from the presence and the board money of summer vacationists to combine the profit and utility of alfalfa with higher rates from hot-weather boarders attracted by the coolness of the ten-acre refrigerator around the house.

Little by little men are beginning to learn how to utilize the means provided by a good Creator for their comfort and well-being.

HE HAD LEARNED SOMETHING

Christmas Incident That Shows the Way of a Modern Maid With Her Victim.

He was a very nervous young man, but he was rather nice, and Elsie thought he was worth encouraging.

She allowed him to take her to tea, she deliberately chuckled the slipper in his eye at "Hunt the Slipper," and she gave him a dance or two. Once or twice she sat down under the mistletoe, but he didn't seem to notice that.

At last when they were alone in a corner of a room, she stood long and insistently under the mistletoe hanging from a curtain pole of the bay window.

Then, very nervously, he pecked her face. She, of course, protested mildly; but as they seated themselves once more, most respectfully on a couple of chairs, she kept the conversation on mistletoe.

At length he ventured: "It is—a nice Christmas custom, hanging up mistletoe, but I wonder why they always hang it over doors, windows or chandeliers?"

"Because it's not necessary to have any out on the stairs or in any other dark places," she murmured softly.

Ecuador.

It was one hundred years ago that Ecuador liberated itself from Spanish rule. To commemorate the anniversary, Ecuador has issued a series with nineteen denominations—one centavo to one sucre—each bearing a portrait of some man who won renown in Ecuador's history. The dates 1820 and 1920 are a part of the design. Greatly to the surprise of collectors, no 20-centavo denomination appeared as part of the set, for Ecuador's sets for forty years have included one of that value. Inquiry brought the disclosure that 62,000 copies of a 20-centavo were printed, but the value description, veinte, meaning "twenty," was through an error spelled veinte instead. The postal authorities destroyed the entire lot, and a 20-centavo will appear as soon as a new plate has been made. Youth's Companion.

Now the vacuum subway express has been invented. Working somewhat after the fashion of the pneumatic cash carriers that have long been in use in department stores, the trains proceed from one tunnel station to another, according to prospectus, at the rate of 150 miles an hour. This speed is attained with slight expenditure of power, because the vacuum system removes all air resistance from the front of the train and applies expanding air to the rear. The inventor presumably got his idea for the vacuum subway while travelling by tube, and noting what a small quantity of air the cars could get along with.—Christian Science Monitor.

Czechoslovak Forests.

A novel feature of Czechoslovak forest development is the principle that the annual growth must equal or exceed the annual cut. This is a wise and far-sighted policy. It is estimated that 6,600,000 cubic meters of fire wood and 9,400,000 cubic meters of commercial timber are cut yearly. The quantity used for fuel during and since the war will be greatly reduced, in the very near future, through stimulated production of bituminous coal, lignite and oil. At the prevailing prices for lumber competent authorities estimate the value of the annual timber cut to be about \$120,000,000.

Blind Piano Fixer.

The pianos of the schools of Philadelphia are tuned and cared for by a blind man whose time is entirely taken up by his visits to one school building after another. He not only tunes the instruments, but he goes over the exterior and polishes the cases and keeps them looking like new.

THREE MEN.

ONE—goes around incurring small debts here and there. Doesn't know how he will meet them; only knows they mount up alarmingly fast.

ANOTHER—doesn't owe anybody anything yet, but he's running on a dangerously narrow margin, and wearing himself out trying to keep up with the game.

ANOTHER—saves a little each week from his earnings and puts it in the bank. He's finding a lot that's worth while in life.

These represent three characteristic types. Do you find yourself among them

Bank of Charleroi

BUICK

Everybody knows Buick builds a six cylinder valve in the head Automobile,

--that Buick sold its entire output long before the end of the season,

--that Buick has sold a large percentage of its 1921 schedule,

--that Buick users are Buick salesmen,

--that Buick car values are 100 per cent,

--that we are starting our spring selling off by selling a Buick car every day this week, from Feb. 7 to 12 and want to tell you how we are making these sales.
